

THE SENTINEL.

Daily, 87; Tri-Weekly, 84; Weekly, \$1.50
INVARIAU ADVANCE.JERMAIN & BRIGHTMAN,
Publishers and Proprietors.

TUESDAY MORNING, SEPT. 25, 1860.

To the Public.

The *Sentinel*, having doubled the circulation in the city, and more than tripled our list of subscribers, we are enabled to publish it at the same price as before, and to do so at the same price as before, and to do so at the same price as before.

News Digest.

The *Adriatic* has arrived. Her voyage is of an interesting character. (Gazette) captured Naples on the 8th inst., accompanied only by his staff. A provisional government was immediately formed and Victor Emanuel proclaimed King of Italy. The joy at the success of the revolutionary movement was great. Breakfasts are reported steady at unchanged prices.

The coroner's inquest on the *Lady Elgin* disaster, has rendered a verdict, in which both the owner of the steamer and the officers of the schooner are exonerated. A synopsis of the document will be found in our telegraphic columns.

A fire at St. Louis, on Sunday, destroyed twenty French dwellings. A little girl was burnt to death during the excitement.

The Oswego Commercial says a vote was taken on Monday on the excursion train from Binghamton to Syracuse, bound to the Douglas meeting. It resulted as follows:

For Douglas, 185
For Lincoln, 185
For Fremont, 185

Considering that the train was got up by the Douglases to greet their candidate for the Presidency, we call that a pretty fair Lincoln vote. We presume the persons in attendance at the meeting stood in about the same proportion.

STRANGE DEATH.—A strange death happened in Jefferson, Green county, a few days since. The circumstances are as follows:

DAVID ORTNER, a man about twenty-two years of age, was engaged in piling on a load of grain, in a field, and when he had thrown the shock nearly all on, a rabbit ran under the same and he ran to catch it, after he had run a few feet, he fell suddenly, completely prostrated. In this condition he was taken to a house near by, he soon regained his strength, and became well and unmanageable so much so that it required five or six men to hold him on the bed. In this condition he soon died. This strange death was probably caused by internal bleeding.

SAD ACCIDENT.—In the town of Spring Grove, Green county, while loading grain, young German, FREDERICK WERNER, fell from the load near to the horses heads. The horses commenced kicking, and before he could be reached, and taken away, his head and chest were badly mangled. He was taken to a house near by, and soon died. He was a painter; badly deformed; had been in Chicago during the past summer, and had saved from his earnings a few hundred dollars. He had been employed in that city, and the citizens there will recollect him. He was a young man of good habits.

LADY FRANKLIN TO BE PRESENT AT THE FIRST TRY OF THE ICE BOAT.—The St. Paul *Times* says Mr. WARD has called his Ice Boat the *Lady Franklin*, and it is the intention of her Ladyship to visit the Upper Mississippi region this Fall, and if possible to be present at the first experimental trip of a novel craft bearing her honored name, at the commencement of the ice season on Mississippi river.

This announcement is by authority; so the citizens of this city certainly will be able to see the heroine whom he did so much to discover the whereabouts of her lost husband.

POPULATION OF DORSET.—Com plete returns of all the wards, in Dorset, except two, give a population of 137,026, against 126,297 in 1855, being a gain of 10,729 in five years. The two wards to hear from will increase the aggregate to 177,626. In the year 1855 it was 162,745, and in 1850, 166,381. The gain has therefore been 14,878 in five years, and 60,745 in ten years.

This does not include the outlying suburbs of Cambridge, Roxbury, Charlestown and Chelsea, which would augment the total population to 267,000.

THE GUNNY LETTER.—The *New York World* again pronounces the celebrated GUNNY letter in the *New York Tribune*, as a forgery. The *World* publishes a letter from Wm. J. ALLEN, a member of the Society of Friends, which says that he has just received two letters, one from a near relative of the family, the other from Mrs. GUNNY herself, pronouncing the letter a fabrication. No such letter was ever heard of or published in England. The narrative was no doubt concocted in Philadelphia.

NORTHEASTERN CONFERENCE OF UNIVERSALISTS.—A Conference of the Universalists of the Northwest, assembled in Chicago to-day. The purpose of the Conference is the consideration of measures for the more complete organization of this rapidly increasing sect of Christians, and especially to foster missionary and educational interests. Delegates will be present from Michigan, Minnesota, Iowa, Missouri, Wisconsin, Ohio, Indiana and Illinois.

OUR FRIEND, ARTHUR ROSE, the Douglas candidate for Senator in Arkansas, who did not secure the election of a single number in his favor at the election, was recently compelled to give up a speech because nobody came to hear him. The *Little Rock (Ark.) True Democrat*, says: "The Little Rock (Ark.) True Democrat, says: 'We would suggest to Colonel Rose the propriety of sending out a party to collect a crowd hereafter.'"

MR. CONNOR'S SPEECH before the Republicans of Ripon, last Saturday evening, gave unbounded satisfaction to his large audience. In all the elements of an orator—in his winning address, his happy illustrations, his logical and thrilling eloquence—he is without an equal among the speakers of the West.

THE DEATH OF the old gentleman, WILSON, reported as having been murdered at Durford, last week, turned out, upon inquiry, to have been caused by an accident—a fall from the scaffolding to the barn floor.

THE ACCIDENT AT MARQUETTE.—The accident recently reported in the Detroit papers, to the effect that two men were burnt to death in a coal kiln, at Marquette, were hoaxes. No such accidents have occurred.

Douglas will not attempt to answer Questions.

The Little Giant has wisely concluded not to listen to those importunate people who wish to catch him, especially as the number is so alarmingly on the increase.

During his recent speech at Clinton Springs, we copy from the report of the Albany *Adelphi*:

"A person in the crowd—Will you allow me to ask you a question?"

Mr. Douglas: "No, sir! I take it for granted that no man wishes to interrupt the chain of my argument except for another, (applause,) and I hold that no man has a right to force himself into a crowd of twenty or thirty thousand people, and to interrupt the chain of my argument except for another, (applause,) and I hold that no man has a right to force himself into a crowd of twenty or thirty thousand people, and to interrupt the chain of my argument except for another, (applause.)"

It is well known that I hold no political opinions which I cannot avow in the same manner as I avow my religious opinions, (applause,) and I hold that no man has a right to force himself into a crowd of twenty or thirty thousand people, and to interrupt the chain of my argument except for another, (applause.)"

WELL BACKED.—The *New York Herald* asserts that the Southern trade merchants in New York city who favor BRECKINRIDGE, could raise two hundred million of dollars for political purposes. That is a bold sum, indeed, and as the *Herald* also says that the Douglas politicians in that city "have not as much money as would pay their carriage over the river and back at least once a week," the thing is settled against the Little Giant.

AT MARQUETTE, Ohio, on Wednesday last, Prof. Saxton, an aeronaut, made a balloon ascension. When he reached a height of about one hundred feet, the balloon burst, striking on the level. Singular as it may seem, the only injury received was a badly smashed ankle.

BAYARD TAYLOR, in a farewell letter to the *New York Mercury*, thus sums up his labors for the past sixteen months: "Two hundred and fifty lectures, thirty thousand miles traveled, forty-eight *Mercury* articles, two books published, and one house built."

The Farmers of Dubuque Co., Iowa, have formed a Farmers' Club, to meet once a month, or oftener.

It is a capital idea. There should be a Farmers' Club in every county of Wisconsin.

ACCIDENT.—MASON WINNER of Trempealeau, had his right arm so badly crushed lately by a threshing machine, that amputation was found to be necessary.

THE PRINCE SEES BLONDIN.—The *Buffalo Commercial Advertiser* of the 17th has the full particulars of the performance of Blondin before the Prince, from which the following is an extract:

"All were now waiting and looking eagerly for the last and greatest act of the day's performance—the still walking. We think that all who witnessed this feat will agree with us in saying that it was one of the most wonderful and daring ever attempted by mortal man. Many who were there to see would have been glad to see the Prince perform this feat, as they gazed, the intrepid man would miss his precarious footing to be precipitated into his seeming abyss."

The story is already a matter of the most terrible and daring ever attempted by mortal man. Many who were there to see would have been glad to see the Prince perform this feat, as they gazed, the intrepid man would miss his precarious footing to be precipitated into his seeming abyss."

The story is already a matter of the most terrible and daring ever attempted by mortal man. Many who were there to see would have been glad to see the Prince perform this feat, as they gazed, the intrepid man would miss his precarious footing to be precipitated into his seeming abyss."

The story is already a matter of the most terrible and daring ever attempted by mortal man. Many who were there to see would have been glad to see the Prince perform this feat, as they gazed, the intrepid man would miss his precarious footing to be precipitated into his seeming abyss."

Lord Renfrew in Chicago.

From the Chicago Press & Tribune.

Lord Renfrew and suite passed the larger share of Saturday in this city, visiting various points of interest, and in the quiet and unostentatious manner, little disturbed by the pressure of crowds, and very wisely allowed by our citizens generally to do their sightseeing in their own way. His redoubt credit upon our community that the wishes of these our visitors, with reference to the best of our domestic affairs, have been strictly complied with. The following, from a committee of citizens, was directed to Lord Renfrew:

RICHMOND HOUSE, Sept. 23, '60.
To Lord Renfrew, Minister of the Crown, Great Britain.

My Lord.—The citizens of Chicago have expressed their warmest wishes for the success of your mission to our young city.

As a representative, in a very high sense, of our mother country, to which we are united by so many and so many interests and sympathies; to which we are bound by so many common ties of blood, and by our common interests, in the interests of our country, and in the interests of our people, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.

As the son of the most admirable of monarchs, the best of our monarchs, and the best of our monarchs, we feel that we have a right to express our warmest wishes for the success of your mission to our young city.
